The Benefits of Being an Octopus

2018-09-18 Ann Braden An NPR Best Book of 2018! Some people can do their homework. Some people get to have crushes on boys. Some people have other things they've got to do. Seventh-grader Zoey has her hands full as she takes care of her much younger siblings after school every day while her mom works her shift at the pizza parlor. Not that her mom seems to appreciate it. At least there's Lenny, her mom's boyfriend—they all get to live in his nice, clean trailer. At school, Zoey tries to stay under the radar. Her only friend Fuchsia has her own issues, and since they're in an entirely different world than the rich kids, it's best if no one notices them. Zoey thinks how much easier everything would be if she were an octopus: eight arms to do eight things at once. Incredible camouflage ability and steady, unblinking vision. Powerful protective defenses. Unfortunately, she's not totally invisible, and one of her teachers forces her to join the debate club. Even though Zoey resists participating, debate ultimately leads her to see things in a new way: her mom's relationship with Lenny, Fuchsia's situation, and her own place in this town of people who think they're better than her. Can Zoey find the courage to speak up, even if it means risking the most stable home she's ever had? This moving debut novel explores the cultural divides around class and the gun debate through the eyes of one girl, living on the edges of society, trying to find her way forward.

Reading Reconsidered

2016-02-29 Doug Lemov TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. The Space of Literature

2015-11 Maurice Blanchot Maurice Blanchot, the eminent literary and cultural critic, has had a vast influence on contemporary French writers--among them Jean Paul Sartre and Jacques Derrida. From the 1930s through the present day, his writings have been shaping the international literary consciousness. *The Space of Literature*, first published in France in 1955, is central to the development of Blanchot's thought. In it he reflects on literature and the unique demand it makes upon our attention. Thus he explores the process of reading as well as the nature of artistic creativity, all the while considering the relation of the literary work to time, to history, and to death. This book consists not so much in the application of a critical method or the demonstration of a theory of literature as in a patiently deliberate meditation upon the literary experience, informed most notably by studies of Mallarmé, Kafka, Rilke, and Hölderlin. Blanchot's discussions of those writers are among the finest in any language.

The objective is to work smartly and select the right method of advertising. If a business isn't using any other method for advertising apart from using yellow pages, it can cause problems and the products may not sell. Analyze how much money is spent on placing ads in directories and estimate whether the amount of customers the business gets is desirable. Whenever a call is received from a potential customer, ask them how they got to know about the enterprise. This will help to analyze which advertising method is ideal for the business. It is never late to correct the mistake and go for the right method.

With Hollywood adoptions being all the rage, exemplified by mega-couple Brad Pitt and Angelina Jolie, adoption has been pushed to the forefront of the collective American consciousness. People generally understand what adoption is, but there remain some obscure details about adoption that go unknown. For instance, are there different kinds of adoption? What is the adoption process like? What's the difference between adoptive children and foster children?

These are all important questions, each of which this article will touch on briefly. First of all, there are two major types of adoption: domestic and international. This article will focus on the various kinds of domestic adoption in the United States. The most important thing to keep in mind is that once an adoption has been finalized, adoptive children and biological children are no different under the eyes of the law. Whether adopted or born into the family, all children are equal members of the family system.

It was stated above that most of the extant statistics pertaining to adoption are inaccurate or outdated. As with all things, however, financial records remain meticulous, allowing for an accurate estimate of the costs of adoption. The biggest factor influencing adoption cost is the kind of agency of involved. A domestic adoption via a public agency may cost as much as \$2500 down to nothing at all. On the other hand, that same adoption when handled by a private agency can cost as little as \$4000, or upwards of \$30,000. The difference is due largely to the fact that public agencies are subsidized by the state, and private agencies often offer more support services which can be costly.

As stated above, these statistics paint only a small part of the picture of adoption. They are merely descriptive, and do not necessarily predict future adoption figures or trends. They do however, provide a certain degree of insight and can be useful for those considering either adopting or placing a child for adoption.

Children for Adoption

A frequent question among those people looking to become adoptive parents is that of what the children are like. This is understandable, of course. After all, before welcoming a child into ones home, it is useful to know what options are available and what one can expect of the child. Since all children are different, there is no single or precise way to answer this question. By examining the various kinds of children who are generally adopted, it is possible to paint something of a general picture.

A customer does not buy a product; he buys benefits in the form of a product. The real value of the product should be realized and a clear picture of it should be presented to the customer so he will be able to relate with the product. If the advertisement doesn't specify the solution it can provide, the customers will never know of it. So focusing on the customers problem is what some ads miss.

The last thing missing in most of the advertisement is motivation for the customers. If the advertiser has designed the advertisement and the customer had read the advertisement, all efforts and money invested will be wasted if he doesn't get up and do something about it. It shouldn't be assumed that the customer knows what to do; instead the advertisement should influence the mind of the customer and should tell him what to do. Call of action is the final job of the advertisement. It should call for information, or visiting the store or even visiting the online store. The message should sound confident and clear.
